

## The World's First Table-Top Cordless Chocolate Fountain by Giles & Posner

Giles & Posner would like to introduce the world's first cordless chocolate fountain, a new innovation in table top chocolate fountains, and economically friendly too. With a stylish contemporary new design, the Professional Cordless is perfect for sharing and fun both at intimate dinners and small parties of family and friends, at home or in restaurants and hotels.

The Professional Cordless will wow clients with such an innovative desert on the menu in any restaurant, let Giles & Posner take your menu to a level above that of competitors, and stun other customers with a chocolate experience to remember.

Powered by rechargeable batteries after initial warm-up and capable of running on the mains cable, the Professional Cordless has been specially created for individual tabletop use, removing the need for a trailing mains cable. The Professional is made of heavy gauge 304 stainless steel for durability and prolonged use, with a unique direct drive motor so there is no risk of belts breaking or slipping in mid-event.

It operates on a minimum of 600g chocolate reducing potential waste, and up to 900g to avoid frequent refills. Virtually any chocolate can be used, however Giles & Posner's fountain chocolate is highly recommended. There is also a range of food service accessories available to partner the Professional Fountain and add to the simplicity of the experience.

The Professional Cordless comes in at £229.95, check out [www.gilesandposner.com](http://www.gilesandposner.com) to find a stockist near you, or to purchase the fountain online. Available in two versions: 200 Watts/220 Volts/50HZ/1A and 200 Watts/110 Volts/30HZ/1A, both Height 413mm/Width 200mm.

Distributors, email [sales@gilesandposner.com](mailto:sales@gilesandposner.com) for wholesale prices.
